

March 22nd 2011

Dear Committee Members,

Please oppose SB 1094

This legislation serves no purpose other than to make criminals out of law abiding citizens. Arbitrarily limiting magazine capacity and threatening law-abiding citizens with confiscation and felony charges is very disheartening. These magazines are utilized every day for home defense and the shooting sports which are perfectly reasonable activities. The raising of this bill is a simple opportunistic move attempting to capitalize on the tragedy in Arizona.

Additionally, manufacturers including Colt, C Products, Mec-Gar, OKAY Industries and Metalform will be directly affected by this legislation. That means a loss of jobs and tax revenue to the state. These are high paying manufacturing jobs that the state cannot afford to loose.

I would also urge the committee to support SB 1210 Castle Doctrine proposed legislation.

Your home is supposed to be your final refuge, a place you can feel safe and secure. Someone forcibly entering another's home is a violent act unto itself and the home owner should be given every benefit. The right to self defense, the right to defend one's own existence is so fundamental that it should be protected by law.

Thank you for your time,

Sean Cheney
